dear yasmil,

dear kelly,

dear megan,

here are the A. and the B. of the day:

A.

- I meet - finally - with clyde - he invited me to attend the tenant-meeting at "forest-houses" which takes place tomorrow (wednesday at 6pm),

I will be there and I will speak about my project to the tenants (about 30 people from the "forest-houses" - I will keep you informed about how it was, clyde may have a person with "street-credit" to me - I will see tomorrow,

B.

- I met with antoinette emers (who prepared very well the meeting) at "bronx river", she invited 3 young persons, tara, isaiah and jermaine (all in different programmes for youth in "bronx river"), all three of them but also antoinette were positive about doing the "Gramsci Monument" in "bronx river", I agreed with them that they wait until I checked with the others (gerri, kwame, clyde) and then I plan to come back to them (end of the week), instead of one person with "street-credit" there are 3 or 4 persons in a team working with me (norma s. should also be in the team - after antoinette),

both meetings were positive, to even very positive - I keep working and meeting again and again - I think we are slowly approaching the decision of the neighbourhood,
take care - take

dear yasmil,

dear kelly,

dear megan,

1. the meeting with randy kennedy went well - he will follow the project,

2. kwame was very nice - he understand that "Soundview" is perhaps not the neighbourhood chosen - he wants to be informed as he knows a lot of people in the bronx and he wants to help when needed,

3. I missed jerri lamb today, first she was not at the meeting and when I tried to reach her at her office it was too late - she had already left,

4. as promised from clyde I could present my project at the tenant-meeting at "Forest Houses", I must admit that it is difficult to explain my work in 5 minutes - so nobody understood but there was also no hostility, the president of the tenants ERIC (smart person) was interested to know more - so, I have a meeting with him, monday 3pm in order to explain exactly what I want to do (right after the meeting with collin),

take care - take care,

thomas
